Eppendorf Catalogue 2012/2013

Products and Applications for the Laboratory

The premium quality, the comprehensive service and a company philosophy that is based on the principles of sustainability give you and us the security of knowing that you can always rely on your Eppendorf products.

Enjoy exploring a wide range of products in the Eppendorf world!

In addition to our classic range products, our 2012/2013 catalogue features a series of new high-quality products and technologies.

Ever since Eppendorf was founded 66 years ago, the company has been a premium supplier for devices, systems and consumables in all aspects of work and research in the lab.
