## Online planning for your lab

WALDNER Laboreinrichtungen offers new website for easy lab design

WALDNER Laboreinrichtungen offers easy lab design for all with its own internet portal "Waldner Collaborate". Those registering on this platform can design a lab according to their requirements in a very short time and visualise it in 3D. Waldner Laboreinrichtungen thus offers a completely new service for customers worldwide.

"Design your own lab and see your ideas come to life" – this is how the internet portal "Collaborate" of Waldner welcomes interested parties. The basic idea of this new service of WALDNER Laboreinrichtungen is to enable registered users worldwide to visualise a lab project within a very short time and with simple tools.

The new internet portal of Waldner focuses especially on simplicity and speed. Once users are registered, they are guided through the system with spe-

cific prompts and can therefore assemble the lab they require within a very short time and visualise it as a 3D room. In addition, customers can also contact Waldner directly and clarify questions together with the responsible sales employee.

With "Waldner Collaborate", flexible furniture elements can be moved around, conversion situations can be simulated and various impressions of the room can be obtained. Another great advantage is that people all over the world can access this design at the same time and discuss it.

Take advantage of the opportunity: Visit the portal of WALDNER Laboreinrichtungen now!
