## A world of flexibility: BIOS ANALYTIQUE Rental Solutions European Partner of Agilent Technologies

### Your equipment needs are giving you a headache?

- I urgently need the equipment but I am still waiting for a budget approval!
- I need the most recent technology in my lab to stay up to date.
- I would prefer to try this instrument for a couple of months before buying it.
- I cannot test this application because I do not have the right technical configuration!

- I haven't got enough equipment to cope with my workload!

### RENTAL with Bios Analytique can be the remedy!

From 1 to 60 months, from a single module to a complete system, our flexible solutions allow you to get the equipment you need without waiting for an investment budget approval as usually.

Whether to manage punctual needs or to strategically finance your lab equipment, you will choose the appropriate rental model:

- Short Term Rental
- Evolving Rental
- Leasing (Operational or Financial)

These rental offers are applicable to the whole range of **Agilent Technologies** instruments:

### Chromatography

- HPLC and UHPLC
- GC and Fast GC

### Mass spectrometry

>> <http://www.analytica-world.com/en/services/86425/>

- LC/MS and LC/MS/MS
- GC/MS and GC/MS/MS
- ICP/MS

### **Spectroscopy**

- UV/Visible Spectrophotometers

### **Life Sciences / Genomics**

- Capillary electrophoresis
- Lab-on-a-chip (Bioanalyzer)
- DNA Microarrays scanners
- PCR and Real-Time PCR (qPCR)

Do not wait any longer to contact us and discover the benefits of rental!
