**Color Delivery Providing Consistency**

14 May 2008-14 May 2008

**Venue**

SpecialChem  
online  
France

**Categories**

Analysis; Chemistry; Process Technology & Chemical Engineering; Quality Management; Spectroscopy

**Description**

Color is everywhere. It is an important aspect of our daily lives. The control of color varies in its precision from very little control to highly sophisticated systems. In an age where many objects are manufactured at separate locations and then assembled into a product elsewhere color control is critical. Attend this e-training course and improve your color control consistency.
